LOCAL TELEPHONE EXCHANGE SERVICE

A. GENERAL

1. Application of Boundary Designations
 - a. Boundaries for the service areas for Exchanges are designated on maps in Tariff M.P.S.C. No. 1.
 - b. Each establishment is within only one Exchange service area except as provided in c. below.
 - c. Where the boundary is designated as a road (street or highway) the area includes that side of the highway on which are located the general plant facilities serving both side of the highway. When such facilities are located on the near side of the highway, a customer located on the opposite side is considered to be within the area if he can be served by a drop wire using not more than one additional pole; when the general facilities are more than one additional pole; when the general facilities are located on the far side of the boundary, a customer on that side is considered to be within the area if he can be served by means of a drop wire not requiring any additional poles.
 - d. Where the boundary is designated as the center of the road (street or highway) each side of the road is in a different service area.
 - e. Where the boundary is designated as a river (stream) or railroad each side of the river or railroad is in a different service area.
 - f. Where the boundary divides a lake, the shore of the lake is in different service areas in accordance with the boundary designation at the shore line.
 - g. Where the boundary is designated as a Township Section Line or a specified distance from a Township Section Line, customers are served in accordance with their location with respect to such boundary line. When such a line is other than the section line or one quarter or one half mile from a section line, the location of the boundary line with respect to the section line will be shown in feet or fractional miles on the Tariff Map Sheet.
