AUXILIARY SERVICES

GENERAL

A. APPLICATION

This Tariff applies to general Auxiliary Services of Chippewa County Telephone Company - hereinafter referred to as the Telephone Company - in exchanges in Michigan, as designated in the Index of Exchanges in Tariff M.P.S.C. No. 1.

General Regulations - Tariff M.P.S.C. No. 7 - of the Telephone Company applies to the various Auxiliary Services, in addition to the regulations included in this Tariff.

B. EXPLANATION OF SYMBOLS

- (C) Signifies a changed regulation.
- (D) Signifies a discontinued rate, treatment or regulation.
- (I) Signifies an increased rate or new treatment resulting in increased rate.
- (N) Signifies a new rate, treatment or regulation.
- (R) Signifies a reduced rate or new treatment resulting in reduced rate.

---

Issued: March 5, 1993

Effective: March 22, 1993

Issued under the authority of the Michigan Public Service Commission Order, dated December 22, 1992, in Case No. U-10064.

AUXILIARY SERVICES  
SPECIAL FACILITIES AND ARRANGEMENTS

GENERAL

1. Special facilities and arrangements not ordinarily provided are furnished wherever practicable, in not detrimental to any of the services furnished by the Telephone Company, at charged equivalent to the estimated cost of furnishing such equipment and arrangements.
2. Estimated cost consists of an estimate of the following items to the extent that they are applicable:
  - a. Cost of maintenance.
  - b. Cost of operation.
  - c. Depreciation on the estimated cost installed of any facilities provided, based on the anticipated useful life of the facilities with an appropriate allowance for the estimated net salvage.
  - d. Administration, taxes and uncollectible revenue on the basis of reasonable average charges for these items.
  - e. Any other specific items of expense associated with the particular situation.
  - f. A reasonable amount, computed on the estimated cost installed of any facilities provided, for returnand contingencies.

Estimated cost installed as mentioned in (c) and (f) above includes cost of equipment and materials specifically provided or used plus the estimated cost of installing, including engineering, labor, supervision, transportation, rights-of-way and any other items which are chargeable to the capital accounts.
3. In particular cases where warranted by the circumstances, the charge may be in the form of a non-recurring charge only, or a monthly charge only, or both a non-recurring and a monthly charge may apply.

---

Issued: March 5, 1993

Effective: March 22, 1993

AUXILIARY SERVICES  
TOUCHCALL SERVICE

A. GENERAL

1. Touchcall Service provides for operating a telephone set by means of push buttons in lieu of rotary dial.
2. Touchcall Service is included in all basic classes of service. The service is available where all equipment on the customer's premises is compatible. It is not necessary that all instruments on a line be equipped for Touchcall; however, all lines on the same instrument must be similarly equipped. (C)

AUXILIARY SERVICES

CHANNEL CHARGES

A. DEFINITIONS

- (1) The term "Same Building" refers to a structure on one foundation or structures on separate foundations with abutting walls and ready access between structures by means of doors through such walls.
- (2) The term "Same Block" refers to a parcel of platted land enclosed, but uncrossed, by public thoroughfares other than alleys. Railroad tracks are not considered public thoroughfares.
- (3) The term "Same Continuous Property" refers to an uninterrupted plot of land occupied by one customer within a single block.

B. RATES

	Monthly Per Channel
a. Terminals in same building	No Charge
b. Terminals in different buildings within the same block and not more than 660 feet airline mileage from main station (per channel)	\$ .80
c. Terminals in different blocks or over 660 feet (per channel):	
First 1/4 airline mile or fraction	3.00
Each additional 1/4 mile or fraction	1.00

Brimley, Michigan

AUXILIARY SERVICES

A. GENERAL

1. Volunteer Fire Reporting Service is a communication arrangement designed for use by volunteer fire departments or other emergency organizations which have a need for special notification of more than one local exchange station when a fire call occurs.
2. Incoming calls are received on a business one-party service which is terminated on conference equipment located within the telephone central office. Emergency fire calls are relayed through the use of common equipment and conference equipment in the central office to each fireman's telephone which is connected to the system. These firemen's telephones will then ring continuously when the listed fire number is dialed. If a line, or lines, are busy, the equipment will camp on and place a tone on the line to alert subscribers using the line than an emergency call is waiting. When the subscribers replace their receivers, the fireman's telephone will then ring. The party making the emergency fire call needs to stay on the line only for the time required to inform one fireman of the nature and location of the emergency. This fireman then remains on the line until the other fireman's telephones connected to the conference arrangement are answered. The individual firemen have the ability to disconnect from the conference arrangement and be returned to their normal telephone service by depression of the switch hook, after receiving notification of the emergency. One line of conference equipment is required for each fireman's service connected to the system.
3. The basic service consists of common equipment and conference equipment located within the telephone central office. The common equipment must be associated with at least one business one-party service. The conference equipment is associated with the volunteer fireman's regular telephone service which may be either one-party or multi-party.
4. The telephone equipment located on each fireman's premises may be equipped to provide for the fireman to activate Fire Siren Control Unit by the operation of a button located on his telephone equipment.
5. The Telephone Company makes no guarantee and assumes no liability for the use, operation or maintenance of Volunteer Fire Reporting Service or any associated equipment used in conjunction therewith. The customer agrees to indemnify and render harmless the Telephone Company, its successors and assigns from and against any and every claim, loss, damage, suit or liability arising out of the furnishing or failure to furnish Volunteer Fire Reporting Service except to the monthly amount paid for such service. The customer shall further render harmless without limitation the Telephone Company for claims involving damage to or destruction of property or personal injury to or death of any person or persons which arises, or is claimed to arise directly or indirectly without negligence, out of the installation, use, maintenance, operation, failure of operation or malfunction of the Volunteer Fire Reporting Service.

B. RATES

1. Equipment and Rates

	Monthly	Installation or Move Charge
a. Common equipment for first 20 lines	\$15.00	\$ 15.00
Common equipment for additional 20 lines	15.00	15.00
b. Conference equipment - each 2 lines	2.00	5.00
c. Business one-party service	Appropriate Tariff Rate	
d. Each Associated Station Line Connection with Fire Siren Control Unit	-0-	5.00

C. AUXILIARY EQUIPMENT

Fire Siren Control Unit - turns on a customer-owned siren. Requires a special service relay.	3.50	10.00
Special Service Relay - if not provided by customer.	1.00	5.00

Issued: March 5, 1993

Effective: March 22, 1993

Issued under the authority of the Michigan Public Service Commission Order dated December 22, 1992, in Case No. U-10064.

By: Juanita Wilson, Manager

Brimley, Michigan

AUXILIARY SERVICES

COIN BOX SERVICE

A. PUBLIC TELEPHONES

1. Public telephones are provided for the use of the general public in making outgoing calls. They are not provided for joint use by the general public and by the occupant of premises for the conduct of his business.
2. Public Telephone Service is provided at the option of the Telephone Company at locations selected by the Telephone Company as suitable and necessary for furnishing service to the general public. Preference is given to locations which are attractive and conveniently accessible, which produce adequate revenue and which provide protection for users of the service as well as for the Telephone Company's property.
3. The Telephone Company will install its standard signs, as necessary, to direct patrons to the telephone.
4. Public Telephones are connected to individual lines or to Telephone Company-attended private branch exchange switchboards.
5. Public Telephones, except where in charge of attendants employed for collecting purposes, are equipped in coin-collecting devices.
6. Extension stations or Directory listings are not provided with Public Telephone Service.
7. Service Connection Charges do not apply to Public Telephone Service.

---

Issued: March 5, 1993

Effective: March 22, 1993

Issued under the authority of the Michigan Public Service Commission Order dated December 22, 1992, in Case No. U-10064.

Brimley, Michigan

AUXILIARY SERVICES

COIN BOX SERVICE

B. SEMIPUBLIC TELEPHONE SERVICE

1. Semipublic Telephone Service is designed to meet telephone service requirements at the following types of locations:
  - a. At locations where the installation of a public telephone is not warranted but where there is a substantial demand for service for transients.
  - b. At locations where there is a substantial collective use of the service by guests, members, employees or occupants.
  - c. At locations where the demand for service is for a combination of transient and customer usage.

Semipublic service is not a substitute for any other service nor is it a means of providing an alternate service at a low cost. It is furnished where the nature of usage indicates that it is suited to meet the requirements at the locations.

On premises which are of a public or semipublic character Semipublic service will be provided at locations which are available to the public.

The Telephone Company reserves the right to refuse to install Semipublic service where the customer will not permit erection of signs and to discontinue Semipublic service if signs are removed by the customer.

2. The customer to Semipublic service does not share in local or toll collections. If collections are less than the toll billing charged to the semipublic telephone, the customer will be billed the difference between the billing and collections on the customer's next monthly billing.
3. Extension stations - without coin-collecting devices - for answering incoming calls may be installed in connection with Semipublic Telephone Service when such stations are essential to the efficient handling of the service. The extension station must be on the same premises as the main station and the latter in plain view of the extension station. A sign shall be installed near the coin box informing users that an extension is connected to the line.
4. Listings in the directory are provided in connection with a semipublic telephone as regularly provided with business service, unless the station is so located that calls cannot be readily answered.
5. The charges for a Semipublic Telephone is as shown on the Local Telephone Exchange Sheet in M.P.S.C. No. 1.

C. LOCAL CALLS FROM PAY STATIONS

1. Messages from a Public or Semipublic telephone to a station bearing the designation of a central office of an exchange in the same Local Service Area as specified in this Tariff, are charged for at \$.20 each.
2. Toll messages are charged for at the rates specified in Michigan Bell Telephone Company's Tariff M.P.S.C. No. 3.

---

Issued: March 5, 1993

Effective: March 22, 1993

Issued under the authority of the Michigan Public Service Commission Order dated December 22, 1992, in Case No. U-10064.

By: Juanita Wilson, Manager

AUXILIARY SERVICES

COMBINATION MAIN STATION SERVICE

A. GENERAL

1. Combination Main Station Service applies to cases where a customer wishes to contract for a main station at each of two separate locations (ordinarily each station will be assigned a separate telephonenumber) within the same exchange, so as to be able to answer calls for one main station at the other main station location or both stations at either location.
2. Combination Main Station Service is provided only in connection with individual lines (excluding coinbox lines and lines terminating in key telephone systems, key equipments, key cabinets and similar switching devices) and is furnished subject to the ability of the Telephone Company to provide satisfactory transmission and signaling arrangements and to the rate treatment outlined herein.
3. Combination Main Station Service may be employed where one station is at a business location and the other at a residence or where both stations are at either business or residence locations, but only in connection with services contracted for and used by the same customer.

B. RATES

1. Each main station is charged for at the established individual line business or residence rate, according to the classification of the service at each premises as to business or residence character.
2. In applying channel charges, as provided for in Tariff M.P.S.C. No. 2, each main station service is considered separately and the mileage charges applicable for individual line service are assessed for each service.

---

Issued: March 5, 1993

Effective: March 22, 1993

AUXILIARY SERVICES

DIRECTORY LISTINGS

A. GENERAL

1. Directories are furnished as an aid to the use of the telephone service. The telephone company reserves the right to refuse to insert any listings in its directories which does not facilitate directory service.
2. A listing in the alphabetical section of the directory is provided each customer without charge, under the conditions set forth in this tariff.

B. LIMITATIONS

1. Listings are limited to information which is essential to identification.
2. The length of a listing may be shortened or abbreviated when the clearness of the listing and identification of the customer is not impaired thereby. When more than one line is necessary to properly list the customer, no additional charge is made.
3. A listing must be in the actual name of the customer to whom service is rendered, or the name of a member, officer, employee or representative thereof, or the name of another business which the customer represents, controls or owns. Listings other than those specified herein are available only in connection with Joint User Service.
4. The following listings are not acceptable and will not be published in the telephone directory:
  - a. An assumed name unless it is registered as required by law.
  - b. A name which is likely to mislead or deceive the public or which is inserted for advertising purposes.
  - c. A commodity or trade name.
  - d. Double name listings such as XYZ Manufacturing Company, John Doe, Manager.
  - e. Symbols, as they cannot be properly placed alphabetically.
5. When PBX or rotary line users are served by central office equipment which permits the selection of an idle facility in the customer's group, only one listing is provided at no charge.
6. In order to assist in locating a listing where the surname may be spelled in more than one way, the telephone company may insert alphabetically a cross reference listing showing the other spelling of the name.
7. Residence listings may include the standards abbreviation for military titles or professional degrees or titles earned by a customer which are an aid to the general public. Standard abbreviations for titles or degrees earned that are of commercial value may be included in the customer's business listing.

---

Issued: March 5, 1993

Effective: March 22, 1993

AUXILIARY SERVICES

JOINT USER SERVICE

A. GENERAL

1. Joint User Service is an arrangement whereby a person or firm - designated a Joint User - is permitted to use the service of a customer. To facilitate this use, a directory listing is provided for each Joint User.
2. Joint User Service is provided only in connection with individual line business service and private branch exchange business service.
3. The Joint User must be located in the same office or suite of offices as the customer, or in an office immediately adjacent thereto and connected therewith by passageways other than public passageways.
4. Joint User Service is not furnished in association with the service of a customer who is engaged primarily in performing service of a secretarial nature or who is in the business of renting space to transient or permanent tenants.
5. No separate ring numbers or distinctive designations are assigned for the purpose of signaling Joint Users.
6. Joint User Service must be contracted for by the original customer who is required to assume responsibility for all charges incurred by the Joint User.
7. Charges for Joint User Service date from the day service is rendered. The Joint User Service is automatically discontinued upon termination of the main service. The minimum charge for Joint User Service, however, is the charge for the period of one month.
8. After the listing of a Joint User has been inserted in the directory, such Joint User Service shall not be discontinued during the life of the directory - but not to exceed one year, unless:
  - a. The main station service is also discontinued.
  - b. The Joint User moves from the premises in which the main station is located.
  - c. The Joint User establishes main station service on the same premises.

B. RATES

1. Joint User Service, including one listing in the directory, is furnished at an additional 50% of the charge for one Individual Business Line (and Mileage), per month.
2. No installation charges are applicable.

AUXILIARY SERVICES

UNIVERSAL EMERGENCY NUMBER SERVICE (911)

A. General

1. This tariff provides for Universal Emergency Number Service (911) as provided under the conditions set forth in the Emergency Telephone Service Act, 1986 PA 32; MCL 484.1101 et seq. The provisions of PA-32, as enacted or amended, supersede this tariff.
2. Universal Emergency Number Service (911), is a telephone exchange communication service whereby a Public Safety Answering Point (PSAP) designed by the customer may receive telephone calls dialed to the telephone number 911 from service users within a 911 service district.
3. Under the provisions of PA-32 the county is the agency that is empowered to establish an emergency telephone district or a 911 service district. The county, upon adoption of the resolution, must act on behalf of the public agencies located within the 911 service district.
4. As soon as it is feasible, after receipt of a written application from a county requesting 911 service within a 911 service district described in a final 911 service plan adopted pursuant to PA-32, the service supplier will make the central office facilities available to provide 911 service and options.
5. Two types of 911 service are offered: Basic 911 (B911) and Enhanced 911 Service (E911).
  - a. Basic 911 Service provides for routing all 911 calls originated by telephones having telephone numbers beginning with a given central office prefix code or codes to a single PSAP equipped to receive those calls.
  - b. Enhanced 911 Service provides additional features: such as selective routing of 911 calls to a specific PSAP that is selected from the various PSAPs serving customers within that central office area; E911 Trunks; Automatic Number Identification and PSAP Data Base Establishment and Update Service.
6. Pursuant to PA-32, the 911 calling party waives the privacy afforded by non-listed and non-published service to the extent that the telephone number, address and name associated with the originating access line location are furnished to the PSAP.

---

Issued: November 3, 2005

Effective: November 4, 2005

Issued under authority of Public Act 179 Act of 1991 as amended

By: James P. Brogan, III, V.P.-C.O.O., HCI

Munising, Michigan

AUXILIARY SERVICES

UNIVERSAL EMERGENCY NUMBER SERVICE (911)

B. Definition of Terms

Automatic Location Identification (ALI) - an E911 feature that provides the name or address or both associated with the calling party's telephone number (identified by ANI as defined below) to the PSAP for display. Additional telephones with the same number as the calling party's (secondary locations, off-premise extensions, etc.) are identified with the address of the telephone number at the main location.

Automatic Number Identification (ANI) - provides for the telephone number of the calling party to be forwarded to the PSAP.

911 Trunks - trunks between a serving central office and a PSAP or between two central offices, except where one of the central offices is a remote unit. In instances where one of the central offices is a remote unit, nonrecurring charges and monthly rates do not apply to that segment of the 911 Trunk.

Emergency Service Number (ESN) - an ESN is a Selective Routing (SR) code assigned to each telephone number in an exchange where SR is provided to route E911 calls to an appropriate PSAP. The ESN defines the set of emergency services (e.g., police, fire, medical) within a particular serving area. An ESN is associated with a primary PSAP and possibly one or more secondary PSAPs.

Emergency Telephone Service Charge - a charge for the network start-up costs, customer notification costs, billing costs including an allowance for uncollectibles, and network nonrecurring and recurring installation, maintenance, service and equipment network charges of a service supplier providing 911 service pursuant to PA-32.

911 Service Area - the geographic area in which the customer will respond to all 911 calls and dispatch appropriate emergency assistance.

PSAP Data Base Establishment and Update Service - provides the PSAP with the initial list, as well as periodic updates of customer names, telephone numbers and addresses for ALI.

Public Safety Answering Point (PSAP) - a communications facility operated or answered on a 24-hour basis, assigned responsibility by a public agency or county to receive 911 calls and, as appropriate, to directly dispatch emergency response services, or to transfer or relay emergency 911 calls to other public safety agencies. It is the first point of reception by a public safety agency of a 911 call, and services the jurisdictions in which it is located and other participating jurisdictions, if any.

Selective Routing Service - a feature that routes an E911 call from a central office to the designated primary PSAP based upon the identified number of the calling party.

AUXILIARY SERVICES

UNIVERSAL EMERGENCY NUMBER SERVICE (911)

B. Definition of Terms (Continued)

Service Supplier - any provider of regulated telephone service to a service user in the state.

Serving Central Office - the central office from which a PSAP, either primary or secondary, is served.

Universal Emergency Number Service - a telephone exchange communication service whereby a Public Safety Answering Point (PSAP) designated by the customer may receive telephone calls dialed to the telephone number 911. The 911 service includes lines and equipment necessary for transferring and dispatching public emergency telephone calls originated by persons within the telephone central offices areas arranged for 911 calling.

Universal Emergency Number Service Customer (Customer) - the board of county commissioners is designated as the customer that is legally authorized to subscribe to service and have public safety responsibility by law to respond to telephone calls from the public or emergency police, fire or other emergency services within the telephone central office areas arranged for 911 calling. A customer or group of customers may authorize an agent to subscribe to the service but the agent is not the customer.

C. Rates and Charges

1. Appropriate recurring and nonrecurring service charges and rates apply as set forth in the applicable MPSC tariffs of the telephone company or by concurrence with other telephone company tariffs or by special contractual agreements between the telephone company and the appropriate governmental agency.

D. Emergency Telephone Service Charge

1. PA-32 mandates that the telephone company be permitted to recover costs incurred for providing 911 service through the Emergency Telephone Service Charge.
2. For any Emergency Telephone District (911 service) wishing to recover costs pursuant to PA-32 the following shall apply:
  - A. The Emergency Telephone Service Charge shall be determined by the designated co-ordinator of the 911 service district based on the costs and charges submitted by the service suppliers.
    1. The amount of the Emergency Service Charge payable monthly by a service user for recurring costs and charges shall not exceed the amount authorized by PA-32 based on the highest monthly local service rate charged by the service suppliers for a residential 1-party unlimited calling service within the 911 service district.

AUXILIARY SERVICES

UNIVERSAL EMERGENCY NUMBER SERVICE (911)

D. Emergency Telephone Service Charge (Continued)

2. The amount of the Emergency Telephone Service Charge payable monthly by a service user for nonrecurring costs and charges shall not exceed the amount authorized by PA-32 based on the highest monthly service rate charged by the service suppliers for a residential 1-party unlimited calling service within the 911 service district. This portion of the Emergency Telephone Service Charge shall be amortized over a period authorized by PA-32 and shall be billed and collected from all service users only until such amounts are fully recovered by the service suppliers.
- B. Because the service supplier serving boundaries and political subdivisions and 911 service district boundaries may not coincide, the Emergency Telephone Service Charge will be payable by all service users served by a central office providing 911 service.

E. Rules and Regulations

1. This service is limited to the use of central office telephone number 911 as the universal emergency telephone number.
2. The service supplier shall not be required to provide 911 service to less than an entire central office (switching entity).
3. The service supplier will not provide both Basic 911 and Enhanced 911 service within a given central office (switching entity).
4. 911 service is furnished to the customer only for the purpose of receiving reports of emergencies from the public.
5. Intercept service for the seven-digit emergency numbers replaced by 911 will be provided, upon request, for up to one year or until the next customer directory issuance, whichever is longer, at no charge.
6. 911 service lines are arranged for one-way incoming service to the appropriate PSAP. These lines cannot be used to originate calls from a PSAP.
7. 911 service lines are provided solely for the benefit of the customer operating the PSAP. The provision of 911 service by the service supplier shall not be interpreted, construed or regarded as being for the benefit of or creating any service supplier obligation, either expressed or implied, toward any third person or legal entity other than the customer.
8. The service supplier does not undertake to answer and forward 911 calls, but furnishes the use of its facilities to enable the service users to have the ability to access the PSAP.

AUXILIARY SERVICES

UNIVERSAL EMERGENCY NUMBER SERVICE (911)

E. Rules and Regulations (Continued)

9. Any terminal equipment (PSAP) used in connection with 911 service, whether such equipment is provided by the service supplier or the customer, shall not be permitted to be used to extract any information from the Data Management System, other than information relating to number identified as the source of an in-progress 911 call.
10. E911 information consisting of the names, addresses and telephone numbers of telephone customers whose listings are not published in directories or listed in Directory Assistance Offices is confidential. Information will be provided on a call-by-call basis only for the purpose of responding to emergency calls and is not to be used or disclosed by the customer, its agents or employees for any other purpose.
11. ANI/ALI may not be displayed on calls placed over party lines.
12. The service supplier's entire liability to any person for interruption or failure of 911 service shall be limited to the terms specified in this and other tariffs.
13. The rates charged for 911 service do not include the monitoring of facilities to discover errors, defects and malfunctions in the service, nor does the service supplier undertake such responsibility. The customer shall be responsible for making such operational tests as, in the judgment of the customer, are required to determine whether the system is functioning properly for its use. The customer shall promptly notify the service supplier in the event the system is not functioning properly.
14. The service supplier's liability to the customer, the 911 calling party or any other party or persons for any loss or damage arising from errors, interruptions, omissions, delays, defects, failures or malfunctions of this service or any part thereof whether caused by the negligence of the service supplier or otherwise shall not exceed an amount equivalent to the pro-rata charges for the service affected during the period of time that the service was fully or partially inoperative. These limited damages shall be in addition to any credits that may be given for an out-of-service condition.
15. The customer and participating governmental units and agencies each agree to release, indemnify, defend and hold harmless the service supplier from any and all loss, claims, demands, suits or other action, or any liability what-so-ever, other than the service supplier's sole negligence, arising out of the customer's use of 911 service whether suffered, made, instituted or asserted by the customer or by any other party or person, for any personal injury to or death of any person or persons, or for any loss, damage or destruction of any property, whether owned by the customer or others; and the customer and participating governmental units and agencies agree to purchase and maintain adequate insurance against such liability.

E. Rules and Regulations (Continued)

16. The customer also agrees to release, indemnify, defend and hold harmless the service supplier from any infringement or invasion of the right of privacy or confidentiality of any person or persons, caused or claimed to have been caused, directly or indirectly, by the installation, operation, failure to operate, maintenance, removal, presence, condition, occasion or use of 911 service features and the equipment associated therewith, or by any services furnished by the service supplier in connection therewith, including, but not limited to, the identification of the telephone number, address or name associated with the telephone used by the party or parties accessing 911 service hereunder, and that arise out of the negligence or other wrongful act of the customer, its user agencies or municipalities, or the employees or agents of any one of them.
17. The installation of initial or subsequent 911 exchange lines to maintain applicable service supplier service standards will be provided, at the appropriate charges, by the service supplier.
18. Because the service supplier's telephone exchange boundaries and political subdivisions and 911 service district boundaries may not coincide, as a condition of 911 service, the customer must handle or make arrangements to handle all 911 calls that originate from telephones served by central offices in the local service area whether or not the calling telephone is situated on property within the geographical boundaries of the customer's public safety jurisdiction.
19. Application for 911 service must be made in writing by the customer. If application for service is made by an agent, the service supplier must be provided with satisfactory written proof of authority of the agent by the customer.
20. The customer shall:
  - a. Subscribe to local exchange service at the PSAP location for administrative purposes, for placing outgoing calls, for receiving non-911 calls and for operator-forwarded calls.
  - b. Subscribe to, or provide, telephone equipment with a capacity adequate to handle the number of incoming 911 lines recommended by the service supplier.
  - c. Appoint a coordinator who will be responsible for the implementation of the final 911 service plan and the determination of the Emergency Telephone Service Charge, who will oversee the annual auditing process, and who will negotiate call handling situations where central office overlap situations exist with other agencies or counties.
