GENERAL REGULATIONS

CONTRACTS FOR SERVICE OR FACILITIES

A. GENERAL

1. Applications for service and facilities made orally or in writing become contracts upon the establishment of the service or facilities.
2. Any change in rates or regulations prescribed by public authority having jurisdiction modifies all terms and regulations of contracts to the extent of such change.
3. An applicant who otherwise qualifies for the immediate establishment of service may take over the service of a subscriber discontinuing that service if the subscriber discontinuing the service agrees to such supersedure in writing and arrangement suitable to the Telephone Company is made to pay all outstanding charges and all other contractual obligations against the service.
4. Contracts for service or facilities may not be terminated except upon advance notice to the Telephone Company, at which time there is due and payable all unpaid charges for the period the service or facilities have been furnished, and all applicable minimum and termination charges.

B. INITIAL CONTRACT PERIODS AND MINIMUM CHARGES

1. Unless otherwise specified in the Telephone Company's Tariffs, the minimum contract period is one month from the date service is established and the minimum charge is the established rate for one month.
2. In lieu of contracts of the required initial period, the Telephone Company may permit the payment of special installation charges or termination charges, the regular Service Connection Charges and installation charges to apply in addition.

C. APPLICATION OF MINIMUM AND TERMINATION CHARGES

1. Where a contract for service with a one month minimum contract period is cancelled before establishment of service is completed, a charge equal to the costs incurred by the Telephone Company, not to exceed the minimum service charge specified, is applied if all or a portion of the facilities has been installed.
2. With respect to the original contract, minimum and termination charges are waived where a new customer takes over the contract, for the unexpired period thereof, for the service and facilities to be furnished at the same location without lapse of service, and assumes all unpaid charges on the original contract. Minimum and termination charges involved in the original contract are also waived where a new customer takes over the service and facilities covered by the original contract under the conditions stated, except as to payment of unpaid charges, and executes a new contract for the full required minimum period. In either case, minimum and termination charges apply for any service or facilities furnished under the original contract which are not retained by the new customer.
3. When the use of the service or facilities is terminated because of the condemnation, destruction, or damage of property by fire or other cause beyond the control of the customer, which renders the premises unfit for occupancy, the customer is required to pay only the charges for the period during which service or facilities have been furnished, no minimum or termination charges being applied.

GENERAL REGULATIONS

PAYMENTS AND DEPOSITS

A. PAYMENT PROVISIONS

1. The customer shall pay for service and facilities monthly in advance except as otherwise provided elsewhere in the Telephone Company Tariffs - and shall pay for Toll messages, when billed.
2. The customer assumes responsibility for all charges on messages originating at equipment contracted for by him and for messages received on which the charges have been reversed with the consent of the person answering the telephone, unless another party assumes responsibility for payment of a call under an arrangement mutually agreeable to the Telephone Company and other party.
3. Charges are payable at the Telephone Company's Business Offices or at any agencies duly authorized to receive such payments.
4. Charges for a fractional part of a month are computed on the basis of a thirty day month.

B. ADVANCE PAYMENTS

1. Applicants may be required to pay in at the time the application is made all Service Connection Charges and installation charges that may be applicable - as well as such special construction and installation charges as are to be borne by the applicant - except in the case of Federal, State, or Municipal governmental agencies.

C. DEPOSITS

1. An applicant or customer may be required to make a cash deposit or other guarantee as a condition of obtaining basic local exchange service or restoring existing basic local exchange service if:
 - a. The applicant or customer refuses to produce identification which can be readily and inexpensively verified.

 - c. An outstanding bill exists at the address and the person responsible still resides at the address.
 - d. Basic Local Exchange Service has been shut off (temporarily discontinued) for nonpayment.

The deposit may be applied, upon termination of the service, in payment of any unpaid charges for service rendered to the customer or in payment of termination charges that may be applicable. Any balance of the amount deposited, credited to the customer's account, is returned to the customer at the time of termination of the contract or may be returned at any time previous thereto, when a satisfactory credit rating has been established.

2. The fact that a deposit has been made neither relieves the applicant nor the customer from complying with the Telephone Company's regulations as to advance payments, prepayments and the prompt payment of bills on presentation nor does it constitute a waiver or modification of the regulations of the Telephone Company providing for the discontinuance of service for nonpayment of any sums due the Telephone Company for basic local exchange service, regulated toll service and unregulated services rendered.

D. PREPAYMENT

1. Applicants for a service and facilities, other than Federal, State, or Municipal governmental agencies, may be required to prepay one (1) billing period's charges for basic local exchange service as a condition of receiving the regulated service. GENERAL REGULATIONS

PAYMENTS AND DEPOSITS

E. ADJUSTMENT OF CHARGES

In the adjustment of charges for overbilling by the Telephone Company, a refund will be made of the full amount of excess charges when such amount can be determined; when the period during which overbilling has been effective cannot be fixed or the exact amount of overbilling determined from available records, the maximum refund will not exceed an estimated amount equal to such overbilling for a three-year period.

F. TEMPORARY DISCONTINUANCE FOR NONPAYMENT

1. Where service has been temporarily denied in accordance with the provisions of this Tariff and the service is re-established, or where on account of nonpayment of charges an agent of the Telephone Company visits the premises of a customer to remove the equipment, and because of payment does not discontinue service, a charge specified as Restoral of Service Charge is made. This charge covers the customer's entire service and facilities, being independent of the number of units involved, and is in addition to all other charges due.
2. The Restoral of Service charge does not apply where service has been actually discontinued; in that event, upon payment of all charges due, the service will be reestablished on the basis of a new application for service and the payment of the charges associated with such application.

G. ADJUSTMENTS FOR LOCAL TAXES, FEES, ETC.

1. The rate schedules set forth in various tariffs of the Telephone Company do not include any amounts resulting from any taxes, fees, or exactions imposed by or for any municipal corporation or other political subdivision or local agency of government against the Telephone Company, its property or its operations, excepting only taxes imposed generally on corporations.
2. In order to prevent other subscribers from being compelled to share such impositions, the amounts resulting from any such taxes, fees or exactions imposed against the Telephone Company, its property, or its operations, excepting only taxes imposed generally on corporations, shall be billed pro rata by the Telephone Company to its exchange subscribers within the limits of the municipal corporation, or other political subdivision or local agency of government by or for which such taxes, fees or exactions are imposed.

GENERAL REGULATIONS

B. CANCELLATION AFTER WRITTEN NOTICE

1. Under the following conditions, discontinuance or termination by the Telephone Company may be made five (5) days after furnishing a written notice by depositing in the mails a letter addressed to the customer or his agent at the address to which the bills for telephone service are sent:

E. SERVICE DROPS

1. Facilities Provided of Type Determined by Telephone Company

Service Drops are provided either by aerial facilities - on poles of the Telephone Company or of other companies - or by underground facilities (buried), and, except as covered in 2 below, the type of facilities used is determined by the Telephone Company from the conditions involved. For facilities of the type so determined, the following treatment applies:

- a. A Service Drop measuring not more than 250 feet is provided without construction charge. For the measured distance in excess of the 250 foot allowance, a facility charge applies as described elsewhere in the Company's tariffs.
- b. The measurement is the airline distance from the center of the highway paralleling the general distribution plant (located on or off the highway) to the terminal or Drop at the customer's building, or the airline distance from the distribution plant to that terminal, whichever is shorter.

2. Facilities Provided of Different Type than 1 above.

When from the conditions involved the Telephone Company determines that an aerial Service Drop should be provided and in lieu thereof the applicant desires underground or buried facilities, or when aerial facilities are used to provide service or channels to a customer and subsequently the customer requests that such facilities be placed underground, the following applies:

- a. Where cable is laid in conduit, the underground conduit shall be constructed and maintained by or at the expense of the customer and in addition the customer shall pay the cost of the underground cable - including the cost of installing it - less the estimated cost to the Telephone Company of installing such aerial facilities (not in excess of the 250 foot allowance specified in C.1.a.) as would be (or is) required to furnish the same service. The underground conduit shall be constructed in accordance with plans and specifications furnished by the Telephone Company; ownership of the conduit is retained by the customer.

The duct or ducts required in the underground conduit by the Telephone Company to furnish service shall be reserved for its exclusive use.

- b. Cable installed in conduit will be maintained and replaced at the expense of the Telephone Company where the conduit has been inspected in place by the Telephone Company and approved, but repairs or replacements of cable in conduit or trench made necessary by damages caused by the customer or the customer's representatives will be made only at the customer's expense.
- c. Where facilities are changed from aerial to underground or buried, in addition to the above, the customer is charged the cost of dismantling and removing the aerial facilities in addition to 2.a. preceding.

3. Computation of Facility Charge

- a. The facility charge will be based on cost for Service Wire for extensions in excess of the standard allowances.
- b. All service drop facilities so constructed shall be the property of the Telephone Company.
